

Manufacturing Engineering Manager

Duro-Last Roofing, the world's largest manufacturer of prefabricated roofing systems is looking for a **Manufacturing Engineering Manager** located at the Corporate Headquarters in Saginaw, Michigan.

Position Responsibilities:

- Manage Maintenance Group resulting in equipment uptime (OEE) at 85% minimum.
- Develop, implement, and sustain world-class equipment and facilities maintenance policies and procedures (TPM, WO system, Autonomous Maintenance, etc.) across entire enterprise.
- Provide tactical support to the OPS Group with regard to equipment uptime enabling improved operational metrics via direct supervision of the Maintenance, Facilities, and Process Engineering Groups.
- Work strategically with Operations, HR, and other departments to establish optimal equipment and facilities performance standards.
- Consistently implement and sustain equipment uniformity and Best Practices throughout Duro-Last and Exceptional Metals operations while establishing a feedback mechanism to leverage Best Practices.
- Develop and execute CAPEX plans to ensure near-term productivity requirements are satisfied and mitigate long-term supply risk and maintain a competitive edge.
- Develop, manage, and sustain Maintenance Apprentice Program to ensure long-term staffing of the department.
- Manage Process Engineering Group establishing operating policies and target metrics for group.
- Assist with continuous improvement efforts.
- Development of contingency and disaster reaction plans in cooperation with Supply-Chain, OPS, Sales and Finance as required.

Position Requirements:

- Four-year degree in Industrial Engineering, OPS Management, Engineering or related discipline required.
- At least 5 years of multi-plant maintenance management, project management experience, and supervision of skilled-trades and Engineering personnel.
- Proficient in Microsoft office products including Project Manufacturing ERP knowledge, specifically ERP-based Maintenance applications supporting electronic WO systems and data-mining experience to develop machine uptime and repair histories.
- Demonstrated TPM experience, multi-plant maintenance management experience
- CAPEX planning/project experience
- Excellent interpersonal, written, and spoken communication skills
- Outstanding problem solving, multitask, and analytical abilities

Compensation & Benefits:

We offer a competitive salary and excellent benefit program that includes:

- Medical, dental and vision insurance
- Prescription drug program
- Life and AD&D insurance
- Short and long term disability (life insurance is equal to two times annual base salary)
- 401(k) retirement plan with company contribution
- Paid vacation
- 8 ½ paid holidays
- Profit sharing
- Flexible Spending Accounts
